Improvement Technician

At CQM Training & Consultancy Ltd we are keenly aware of the importance of being able to drive production and service delivery to exceed customer demands in an increasingly competitive market place. Ensuring your workforce is equipped with the relevant skills and techniques to deliver effective and sustainable results driven solutions which respond to your business needs, this is essential for your continued sustainability and growth.

Driving Operational Excellence

Through our tailored training and coaching we will deliver the skills, knowledge and behaviours your teams need to drive exceptional performance with confidence. We use a combination of on-site coaching and workshops to ensure that everyone undertaking the programme identifies and implements real business improvements mapped directly into the company's development plan.

Improvement Technician Level 3: Driving Improvement

This programme is ideal for anyone participating in an improvement activity and wanting to gain a fundamental understanding of Lean and Six Sigma methodologies. Participants will acquire the necessary tools and techniques to capably assist in the implementation of a project.

Improvement Technicians will gain the skills to:

- Engage team members in the identification of improvement opportunities and relevant countermeasures and controls
- Share improvement progress through appropriate reporting
- Plan, manage and implement improvement activities
- Identify and scope improvement projects and establish clear measurable objectives
- Apply techniques to identify customers, their requirements and translate these to metrics
- Develop data collection plan and validated measurement processes to understand performance

Improvement Technician

Value Added Delivery

Certification: CQM T&C can underpin the delivery of the apprenticeship programmes with an accredited Lean Six Sigma certificate.

Measurable Impact: Each project will be defined, qualified and approved within a Profit Improvement Plan (PIP), agreed with you in advance. The PIP is a great management tool and clearly demonstrates the progress of each project using DMAIC and a RAG rating.

Mentors: We can help identify, and advise on a suitable Mentor within your organisation. We are able to provide coaching to the nominated Mentor so that they fully understand their role and what will be required of them, but also understand the guidelines within which they operate and to whom they report.

Company Values: CQM T&C are experienced at mapping company values into the delivery of an apprenticeship programme, and completely understand the importance of doing so, to ensure the programme instils the right behaviours and culture on-site.

“Our investment in training has provided us with improvements worth tenfold the cost we put in, bringing Synseal a saving of £250K.”

Steve Hill
Director of Quality & Continuous Improvement,
Synseal Group

Typical Outcomes of Improvement Technician

- Increased competitive advantage
- Significant bottom line savings
- Sustainable and measurable improvement in production
- Increase in efficient manufacturing processes & service delivery
- Reduction in Health & Safety issues
- Enhanced problem-solving capabilities
- Improved understanding of QCD, Visual Management and team working

Guaranteed Return on Investment

With a focus on sustainability and measured improvement, our development programmes always guarantee a significant Return on Investment, seen not only through financial gain, but importantly through positive behavioural change.

Flexible Delivery Model

Our highly experienced team of experts will deliver all the training either as an Open Cohort, attended by contemporaries across all industries, or if sufficient numbers exist for a viable cohort, we will deliver on site at your organisation.

Additional Areas of Expertise

Our skill lies in identifying the current and ongoing needs of your business. To find out how we can further assist in developing your staff please ask for information on our range of programmes which focus upon Leadership and Management Development, Strategy Development and Project Based Consultancy work.
