Provision

This statement applies for all sub-contract delivery for Apprenticeship programmes from 1st August 2024. We do not currently have any live subcontracted agreements and furthermore do not expect to use subcontracted provision within the next 12 months following the date of this document.

Rationale for Future Subcontracting

CQM T&C recognises the benefits that effective subcontract can bring and will consider future subcontracting in the following circumstances:

- Where there is very specialist provision which CQM T&C would not be able to adequately resource and/or
- Where an employer requires bespoke training (within the apprenticeship), that their staff would be better placed to deliver and would give a better experience to the apprenticeship

Subcontract Funding Requirements

We will agree with the EFSA to gain permission for any future subcontracting and will bring into place our full subcontracted policies and procedures to ensure full diligence is adhered to.
